

Pharmacy Benefits for Expatriates

Safe, easy and cost-effective ways for globally mobile employees to get the medication they need.

Comprehensive, Affordable Rx Coverage

- Multiple options for getting medications, including retail pharmacies worldwide and delivery to employees' U.S. address
- Employees within the U.S. can mail-order three-month supplies, often at reduced copays compared to retail
- Showing member ID card at retail U.S. pharmacies can limit out-of-pocket expenses

Global Access to Prescriptions

- Receive up to a one-year supply of prescription medications (pre-deployment)
- Customer Care can provide guidance for filling prescriptions before leaving for assignment
- Prescriptions can be filled at local retail pharmacies while on assignment or at more than 67,000 retail pharmacies in U.S., Puerto Rico and Guam
- U.S. pharmacies are easy to locate at myuhc.com

Help with Medication Names

- Calling Customer Care can help employees understand medication differences, as names and strengths can vary by country
- Employees can get help finding a comparable option if a specific medication is not available in a certain country
- myuhc.com provides drug name translations and detailed information on medications

Helping Members Optimize Rx Benefits

- 1 Mail order option available within the U.S.
- 2 Customer Care helps employees understand their pharmacy benefits information and get their prescriptions filled
- 3 Medication translation and information tools accessible at myuhc.com for help locating local pharmacies, translating drug names into different languages, and learning about medications
- 4 Helps employees stay on their medication and treatment plan anywhere in the world
